

AGENDA

Extraordinary Meeting of the
Buller District Council

Commencing at 9:00AM
Wednesday 5th June 2024

To be held at the
Clocktower Chambers
Palmerston Street
Westport

Also held via Zoom

CORE COUNCILLOR ROLE AND RESPONSIBILITIES

The Governance role entails:

- Strategic planning and decision-making;
- Policy and strategy review;
- Community leadership and engagement, and stewardship;
- Setting appropriate levels of service;
- Maintaining a financially sustainable organisation; and
- Oversight/scrutiny of Council's performance as one team.

The governance role focusses on the big picture of 'steering the boat' - management's role focusses on 'rowing the boat'

Our commitments to best support each other and meet the challenges and opportunities of 2024 include:

CLEAR AND RESPECTFUL COMMUNICATION

We are committed to:

Actively listening and not interrupting;

Remaining conscious of 'tone', body language, and amount of time speaking (allowing time for others);

Responding/answering in a timely manner; and

Being honest, reasonable, and transparent.

TRUST AND RESPECT

We recognise that trust and respect must be earned and that a team without trust isn't really a team. Trust can be built by:

Valuing long-term relationships; being honest; honouring commitments; admitting when you're wrong; communicating effectively; being transparent; standing up for what's right; showing people that you care; being helpful; and being vulnerable.

CONTINUOUS LEARNING AND IMPROVEMENT

Continuous learning and improvement are critical for growing together as a team.

We are committed to constantly reviewing what is going well and what needs to improve in relation to the way we work together, the processes we follow, and the outcomes we deliver.

NONE OF US IS AS SMART AS ALL OF US

Council

| | |
|---------------------------|---|
| Chairperson: | Mayor |
| Membership: | The Mayor and all Councillors |
| Meeting Frequency: | Monthly – or as required. |
| Quorum: | A majority of members (including vacancies) |

Purpose

The Council is responsible for:

1. Providing leadership to, and advocacy on behalf of, the people of Buller district.
2. Ensuring that all functions and powers required of a local authority under legislation, and all decisions required by legislation to be made by local authority resolution, are carried out effectively and efficiently, either by the Council or through delegation.

Terms of Reference

1. To exercise those powers and responsibilities which cannot legally be delegated by Council:
 - a) The power to set district rates.
 - b) The power to create, adopt and implement a bylaw.
 - c) The power to borrow money, or purchase or dispose of assets, other than in accordance with the Long Term Plan.
 - d) The power to adopt a Long Term Plan or Annual Plan, or Annual Report.
 - e) The power to appoint a Chief Executive Officer.
 - f) The power to adopt policies required to be adopted and consulted on under the Local Government Act 2002 in association with the Long Term Plan, or developed for the purpose of the Council's governance statement, including the Infrastructure Strategy.
 - g) The power to adopt a remuneration and employment policy for Chief Executive Officer.
 - h) The power to approve or change the District Plan, or any part of that Plan, in accordance with the Resource Management Act 1991.
 - i) The power to approve or amend the Council's Standing Orders.
 - j) The power to approve or amend the Code of Conduct for Elected Members.
 - k) The power to appoint and discharge members of committees.
 - l) The power to establish a joint committee with another local authority or other public body.
 - m) The power to make the final decision on a recommendation from the Parliamentary Ombudsman, where it is proposed that Council not accept the recommendation.
 - n) Health & Safety obligations and legislative requirements are met.

2. To exercise the following powers and responsibilities of Council, which the Council chooses to retain:
 - a) Resolutions required to be made by a local authority under the Local Electoral Act 2001, including the appointment of an electoral officer and reviewing representation arrangements.
 - b) Approval of any changes to Council's vision, and oversight of that vision by providing direction on strategic priorities and receiving regular reports on its overall achievement.
 - c) Adoption of governance level strategies, plans and policies which advance Council's vision and strategic goals.
 - d) Approval of the Triennial Agreement.
 - e) Approval of the local governance statement required under the Local Government Act 2002.
 - f) Approval of a proposal to the Remuneration Authority for the remuneration of Members.
 - g) Approval of any changes to the nature and delegations of the Committees.
 - h) Approval of funding to benefit the social, cultural, arts and environmental wellbeing of communities in Buller District
 - i) Ensuring Buller is performing to the highest standard in the area of civil defence and emergency management through:
 - i) Implementation of Government requirements
 - ii) Contractual service delivery arrangements with the West Coast Regional Group Emergency Management Office
 - j) All other powers and responsibilities not specifically delegated to the Risk and Audit Committee, subcommittees, independent hearing panels or Inangahua Community Board.

**BULLER DISTRICT COUNCIL
EXTRAORDINARY MEETING**

5 JUNE 2024

AGENDA ITEM: 1

Prepared by Simon Pickford
Chief Executive Officer

APOLOGIES

1. REPORT SUMMARY

That Buller District Council receive any apologies or requests for leave of absence from elected members.

2. DRAFT RECOMMENDATION

That there are no apologies to be received and no requests for leave of absence.

OR

That Buller District Council receives apologies from (insert councillor name) and accepts councillor (insert name) request for leave of absence.

**BULLER DISTRICT COUNCIL
EXTRAORDINARY MEETING**

5 JUNE 2024

AGENDA ITEM: 2

Prepared by Simon Pickford
Chief Executive Officer

MEMBERS INTEREST

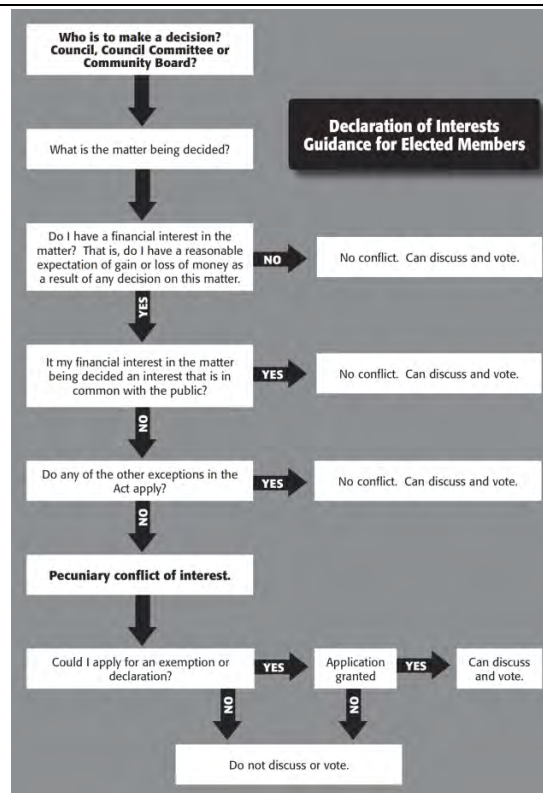

Members are encouraged to consider the items on the agenda and disclose whether they believe they have a financial or non-financial interest in any of the items in terms of Council's Code of Conduct.

Councillors are encouraged to advise the Governance Assistant, of any changes required to their declared Members Interest Register.

The attached flowchart may assist members in making that determination (Appendix A from Code of Conduct).

DRAFT RECOMMENDATION:

That Members disclose any financial or non-financial interest in any of the agenda items.

ZONE 1 RUBBISH COLLECTION CONSULTATION - SUBMISSIONS REPORT

1. REPORT PURPOSE

The report's purpose is to inform Council on the results from the submissions received via the Zone 1 Rubbish Special Consultative Procedure.

2. REPORT SUMMARY

The report summarises the results from the consultation carried out from 12 April to 20 May 2024 in response to the proposed changes to the kerbside collection services in Zone 1 to be implemented from July 2025 onward.

3. DRAFT RECOMMENDATION

That Council:

- 1) Receives this report for Information.**
- 2) Hears verbal submissions from submitters who wish to speak to their submissions.**

4. BACKGROUND

Council consulted with the community on the proposed changes to the rubbish collection for Zone 1 between 7 August and 8 September 2023. The proposal at that time included:

- 1) A shift from using 60 litre rubbish bags to having a 120-litre wheelie bin provided by Council.
- 2) Mandatory rubbish and recycling collection.
- 3) Changing from weekly to fortnightly collection of rubbish.
- 4) Paying for rubbish and recycling collection through rates (rather than buying rubbish bags) i.e. a universal charge.

In total 339 submissions were received and overall, 73% of the submitters expressed that they opposed or strongly opposed to the proposal.

At the December 2023 Council meeting, Council resolved to reconsult with the community on the Zone 1 rubbish collection proposing four options:

Option 1 Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Cost \$9.10 per 60L bag (actual cost)

Option 2 Private sector provides a 120L fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service

Cost \$24.50 per pick (estimated cost)

Option 3 Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120-litre wheelie bin).

Cost \$17.00 per pick (estimated cost)

Option 4 Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120-litre wheelie bin unless they opt for a different size).

Cost \$245 per annum per 80L bins (estimated cost)

\$295 per annum per 120L bins (estimated cost)

\$445 per annum per 240L bins (estimated cost)

5. SUMMARY OF CONSULTATION 2024 RESULTS

In total 150 submissions were received (88 online and 62 written). Of the written submitters a total of 18 submitters indicated they wished to speak to their submissions.

Submissions were received from across Zone 1. 72% were from Westport, 12% from Inangahua/Reefton, 10% from Northern Buller, 4% from southern Buller (including Charleston and Punakaiki), 2% were from outside the district and 1% did not provide their location.

On the strength of the quantitative data, it appears the community supported one of the two main options, being:

- Stay with the Status Quo being plastic bags service run by a commercial contractor
- Move to a wheelie bin covered by annual rates service run by Council

Most respondents favoured staying with the Option1 which was the status quo (35%) following by Option 4 which is a universal bin service (30%).

The summary below outlines the key results:

- Option 1 35%
- Option 2 7%
- Option 3 15%
- Option 4 30%

14% of the submissions were treated as providing comment only and where thus marked as offering 'no-view' on making an option choice. This was mainly due to submitters marking two or more options or not marking any option at all.

The full rubbish consultation results are available in Attachment 1 of this report.

6. CONSIDERATIONS

6.1 Strategic Alignment

Council must ensure the new proposal is in keeping with its strategic direction for the district, the Long-Term Plan 2024-2034, the Waste Management Act, and the Waste Minimisation Management Plan.

6.2 Significance Assessment

Community consultation is required under Section 83 (Special Consultative Procedure) of the Local Government Act 2002 due to the level of the change in the service.

6.3 Tangata Whenua Considerations

Tangata Whenua value the health of the land and its people. Council planning for a robust solid waste management service in Zone 1 is a key element in ensuring community and environmental health.

6.4 Risk Management Implications

Council needs an effective mechanism to mitigate the impacts of the continued waste cost increasing for its residents.

6.5 Policy Framework Implications

Waste management rates approach and charges would need to be varied to cover the operational expenditure to provide the kerbside collection services under the new model of waste management services.

6.6 Legal Implications

Waste management services contract must be in accordance with the Waste Minimisation Act 2008 and the proposed waste management model of services must be approved and adopted by Council before it can be consulted on.

Special Consultative Procedure in accordance with Section 83 of Local Government Act 2002.

6.7 Financial / Budget Implications

LTP 2025-2035 to be updated to reflect the new operational costs under the new model of services.

Costs impacts of the Councils preferred approach will continue to be considered at all stages of the procurement.

Once the outcomes of the public consultation on Councils decided preferred service levels is known; the cost impacts can then be priced via the tender process.

6.8 Consultation Considerations

Under of the Local Government Act 2002 there is a statutory requirement that community consultation is undertaken in accordance with Section 83 (Special Consultative Procedure) of the Act. All requirements to date have been met.

The process is now at the hearing stage as required under the Act:

Sec. 83 (1) (d):

provide an opportunity for persons to present their views to the local authority in a manner that enables spoken (or New Zealand sign language) interaction

between the person and the local authority, or any representatives to whom an appropriate delegation has been made in accordance with Schedule 7; and

Sec. 83 (1) (e):

ensure that any person who wishes to present his or her views to the local authority or its representatives as described in paragraph (d)—

(i) is given a reasonable opportunity to do so; and

(ii) is informed about how and when he or she may take up that opportunity.

Sec 83 (2):

For the purpose of, but without limiting, subsection (1)(d), a local authority may allow any person to present his or her views to the local authority by way of audio link or audiovisual link.

Waste Consultation Hearing: Wednesday 5 June

| Time | Name | Submission Number | Options selected - Comments |
|---------------|--------------------------|-------------------|--|
| 9.10 - 9.20 | Mary McGill Andrews | 134 | Prefers option 1 due to it is a significant incentive to encourage less waste |
| 9.20 - 9.30 | Graham Howard | 132 | Prefers option 1. No comments provided |
| 9.30 - 9.40 | Kair Lippiat | 86 | Prefers option 2. Though this is too little - the council needs to get way more ambitious. One drawback is listed as smelly rubbish. One way to relieve that is to provide a weekly food & green waste collection service. |
| 9.40 - 9.50 | Fiona MacDonald | 82 | Prefers option 1. As a household we make a very concerted effort to reduce waste, including composting, purchasing decisions, and extreme care in how we do things. Consequently, we produce little waste, and see any decision other than only paying for what we produce as unfair, as we already pay extra by choice to be kinder to the planet. We see the only fair way here is option one. |
| 9.50 - 10.00 | Paul Reynolds | 113 | Didn't mark any options. He said that the proposal is ambiguous, lack of full information and does not include prices obtained by an open tender to allow ratepayers to make an informed choice |
| 10:00 – 10:10 | Frida Inta | 91 | Did not select any option. It is hard to make an informed submission on rubbish means when many of the statistics needed are hidden behind perceived commercially sensitive barriers. |
| 10:10 – 10:20 | Lynne Duncan | 115 | Prefers option 2. No comments |
| 10:20 – 10:40 | Morning Tea Break | | |
| 10:40 – 10:50 | Tony Harrington | 123 | Prefers option 4. Option 4 is the only sensible long-term plan, any current benefits from pay as you go will soon be eroded with the increased costs of a service that not all residents are using. It should lead to a lot less contamination in recycling and less fly tipping. Hopefully reducing the overall costs in these areas to the council. I would also like to see the recycle bin audits done regularly and unannounced, so residents know to keep contaminants to a minimum. (If in doubt something is recyclable put in it in the already paid for (Option 4) refuse bin) Some residents won't be burning anything combustible and leaving piles of refuse to rot in their back yards because they refuse to pay the price of Pay as You Throw. |
| 10:50 – 11:00 | Joanne Smith | 85 | Did not select any option. There is no cost on each of the options. I cannot say which option is the best if you don't provide the right information |
| 11:00 – 11:10 | Jan & Mike Furze | 133 | Did not select any option. Why doesn't the rubbish get taken to Stockton?? Option 1: 60 litre bags. A years' worth for \$9.60 would be nice. 240 litre wheelie bins with barcode or pre-paid tags. We only put our bin out about every couple of months and we don't think we should be charged every fortnight. We would rather talk to someone, because there has been so much paperwork, it is getting confusing, and I wonder if you even know what it is about. |

Rubbish collection consultation Zone 1

Submissions outcome

May 2024

A. Introduction

This report compiles feedback from the Zone 1 rubbish collection special consultative procedure carried out between 12 April and 20 May 2024 in the Buller District. The consultation aimed to seek feedback about the rubbish collection services in Zone 1 that will be implemented from July 2025 onwards.

The report describes the current rubbish collection services offered in Zone 1 and highlights the points that prompted Council to consider changing the way rubbish collection is managed.

The report summarises the statement of proposal, which included the four options on which the community was invited to provide feedback. It presents the submission results, including an analysis of the qualitative data (comments) outlining the submitter's reason for choosing one option.

It's important to note that this public consultation represents the feedback and views of the participants that choose to engage and may not capture all the broader community's perspectives. However, the insights collected will help councillors to make an informed decision about the Zone 1 rubbish collection services from July 2025 onwards.

B. Context

B1. Current rubbish collection in Zone 1

The rubbish and recycling collection Zone 1 covers the areas from Westport to the North until Mōkihinui Bridge, including Seddonville, Granity and Waimangaroa, Cape Foulwind, Charleston, Fox River and Punakaiki to the South and Buller Gorge Road, Inangahua, Reefton, Blackball, Ikamatua to the east.

In this area a kerbside rubbish collection service is currently offered via a private commercial operation managed and operated by Smart Environmental Ltd. The service is a Pay As You Throw (PAYT) model using either 60 litre official rubbish bags or a private wheelie bin service on a periodic basis. The official rubbish bags are currently sold for \$9.10 incl. GST. (2023/24 FY costs). Bin costs vary depending on the bin size and collection frequency. The prices are set by Smart Environmental Ltd. This service is self-funding and not subsidised by Council.

A kerbside recycling collection service is currently provided using a 240L recycling bin and a 45L glass crate, funded by Council via waste management rates (currently at \$178 incl. GST per annum). The service is delivered by Smart Environmental Ltd on behalf of Council. The kerbside recycling collection system in Zone 1 is not proposed to change.

B2. Drivers to change

Several issues been identified in the last years in the waste management sector, which suggest it is timely to make a change to the household collections:

- The waste collection sector is moving from bags to wheelie bins for health and safety reasons. Wheelie bins reduce the risk of infection from waste and manual handling injuries.
- The Ministry for the Environment has announced the standardisation of household collection services focussed on recyclable materials and food waste.
- Illegal dumping continues across the district, and providing a consistent service for all households is anticipated to aid in mitigation and go some way to reduce it.
- By controlling services, Council can invest on behalf of the community to capture more materials for recycling and recovery.
- By providing a universal household collection service to the specified areas of the Buller District, Council can manage the costs for each household.

B3. Consultation 2023

Council agreed at its July 2023 meeting to consult with the community on a proposed change in the delivery of the rubbish collection in Zone 1. The consultation took place from 7 August to 8 September 2023 and proposed four key changes:

1. A shift from using 60 litre rubbish bags to having a 120 litre wheelie bin provided by Council.
2. Mandatory rubbish and recycling collection.
3. Changing from weekly to fortnightly rubbish collection.
4. Paying for rubbish and recycling collection through rates (rather than buying rubbish bags).

The consultation resulted in a range of submissions and public views and feedback on the proposal. Some commentary supporting a shift to collecting rubbish in wheelie bins was identified. However, concerns about a move from the current 'pay as you throw' approach to funding rubbish collection via a standard uniform charge were recurrent.

Other concerns were related to the cost on households that make minimum use of the kerbside rubbish collection service and the removing of the current financial incentive to minimise rubbish. Overall, 73% of the submitters were opposed to the proposal.

At the December 2023 Council meeting, Council resolved to select four options to reconult with the community for the Zone 1 rubbish collection.

C. Consultation 2024

C1. Summary of the Statement of Proposal 2024

The Statement of Proposal included four options on how Council could change how household rubbish collection services are delivered and funded in Zone 1 from 1 July 2025. It is important to outline that:

- All costs presented in the Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options in today's pricing. These will be subject to change when implemented in July 2025.
- The four options do not include the recycling rate, which will be in addition to these costs. (The recycling rate is \$178, —incl GST as of the 2023/24 financial year.)
- The option Council decides on will be rolled out for all households in Zone 1 with rubbish collection from July 2025.

The four options included in the Statement of Proposal are briefly outlined below. Two are delivered via a private commercial operator (Option 1 and 2) and two are provided by Council, via a contractor (Option 3 and 4).

Option 1 Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Cost to the ratepayer: \$9.10 per 60L bag. (actual cost)

Option 2 Private sector provides a 120L fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service

Cost to the ratepayer: \$24.50 per pick (estimated cost)

Option 3 Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120-litre wheelie bin).

Cost to the ratepayer: \$17.00 per pick (estimated cost)

Option 4 Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120-litre wheelie bin unless they opt for a different size).

Cost to the ratepayer: \$245 per annum per 80L bins (estimated cost)

\$295 per annum per 120L bins (estimated cost)

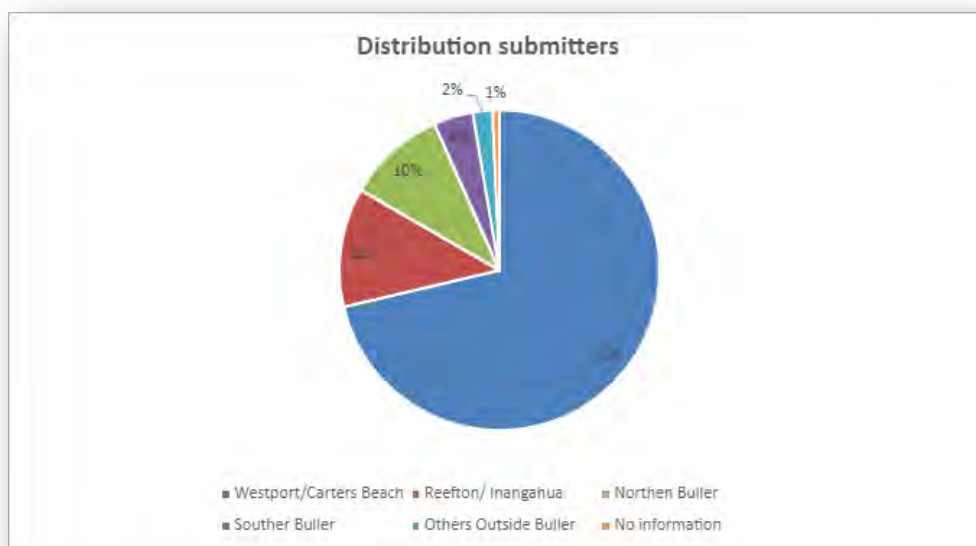

\$445 per annum per 240L bins (estimated cost)

C2. Submission analysis and results

Geographic location of submitters and submission return

In total **150 submissions** were received (88 online and 62 written) and a total of **18 submitters** wanted to speak to their submissions.

The following graph shows the geographical distribution of the submitters. 72% were from Westport, 12% from Inangahua/Reefton, 10% from Northern Buller, 4% from southern Buller (including Charleston and Punakaiki), 2% were from outside the district and 1% did not provide their location.

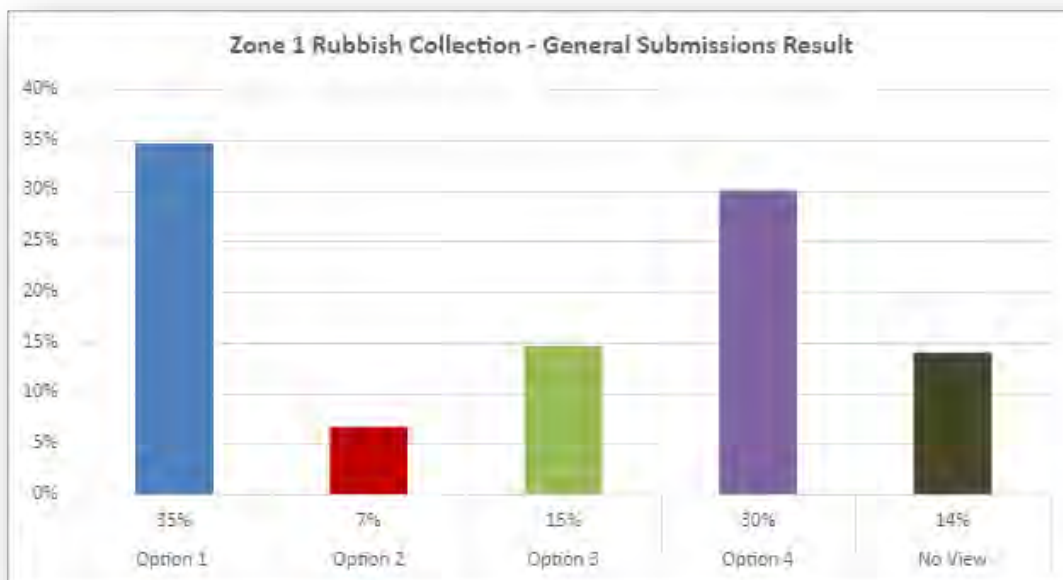

Options for rubbish collection in Zone 1

Submitters indicated which was their preferred option for how rubbish is collected and funded in Zone 1 from July 2024 onwards.

The summary below outlines the results which are displayed in the graph on the next page.

- 35% preferred Option 1
- 30% preferred Option 4
- 15% preferred Option 3
- 7% preferred Option 2

14% of the submissions provided either no clear indication of an option or they marked two or more options. These submissions are counted as offering 'no view' and are recorded as such.

Overall, the submitters indicated a preference for the Pay As You Throw model reflected in the 57% of the submitters who opted for the options 1, 2 and 3 that offer a Pay As You Throw model.

The use of wheelie bins for rubbish collection (either universal rates charge or via one of the two Pay as You Thow models) was the option selected by the 52% of the submitters (Option 2,3,4).

Qualitative analyses of comments

115 submitters commented on the proposal as part of the submission process, and 35 did not leave a comment. These comments were analysed, and the insights are summarised in the following section.

The table below summarises the main reasons why submitters preferred one of the options.

| Option | Main reasons to choose the option |
|----------|--|
| Option 1 | Submitters who preferred Option 1 said they prefer a Pay As You Throw model as this is a fair approach and the rubbish charge would reflect the quantities generated. Several of them said that they use a few bags per year and rubbish paid by rates would penalise lower rubbish generators. |

| | |
|------------------------|--|
| | <p>Others also expressed that the Council should keep the status quo since the current system is very flexible and suits them well. Some also said that Council should not charge residents who don't use the rubbish collection system and prefer other disposal methods, such as dropping off rubbish at the transfer station.</p> <p>Concerns that rates are expensive enough without rubbish collection and that residents with lower incomes cannot afford more council charges were also common.</p> <p>Some expressed that this option would support ratepayers committed to a sustainable lifestyle, those who minimise waste, make compost at home, have an organic property, or reuse when possible. They emphasised that mandatory rubbish collection is unfair to them.</p> |
| <p>Option 2</p> | <p>Submitters who prefer Option 2 expressed that a user pay model is their preferred approach. They highlighted that they do not use the rubbish collection services because they drop off rubbish at the transfer station.</p> |
| <p>Option 3</p> | <p>Submitters who selected Option 3 expressed that this option meets the principle of Pay as You Throw while moving away from bags. Some of them also said that they like this option because it gives the Council more control over charges and prices.</p> |
| <p>Option 4</p> | <p>Submitters who chose Option 4 expressed that they preferred this option because they think it better suits the needs of the wider community. It results in the best value for money, it is more cost-effective than the other options, and it reduces overall rubbish costs.</p> <p>Several of them also outlined that they like the universal charges system because they hope it will reduce illegal rubbish dumping and waste burning. Some highlight that this system works very well in other regions and is a common approach in New Zealand.</p> <p>They also gave positive feedback about the change from bags to bins, since bags are impractical and hard to keep sanitary when putting out. Some expressed that different sizes of bins are a fair approach and would suit people who produce less waste. A few expressed a desire to remove bags from the environment.</p> |
| <p>No View</p> | <p>Several submitters did not choose any option or chose two or more options, which resulted in an invalid options submissions. These people however took the opportunity to comment, which has been captured in this report. In general, the commentary included, that the consultation did not provide prices through an open tender. Also, they highlighted what they felt was a lack of information to make an informed decision.</p> |

Further comments analysis

A more detailed analysis of the submitter's comments focused on common themes and their frequency. The results are listed below.

- 14 submitters emphasised they prefer a Pay As You Throw model, which they think is a fair option. Council would charge according to the quantities generated with this system.
- 10 stated that Council should control prices and charges and keep the profit in Buller, instead of continuing to use private contractors.
- 9 expressed that a rubbish collection using bins and funded by rates is appropriate, suits the community's needs and offers the best value for money.
- 8 respondents expressed that they are low waste generators and make waste minimisation efforts such as composting, reuse and recycle. Some of them believe Council should support ratepayers who make efforts to reduce waste.
- 8 agreed that a local disposal option, such as a closer landfill, is required and that Council needs to define a more cost-effective way for waste disposal.
- 7 submitters said they prefer Status Quo because the current system is very flexible, suits them well, and offers an incentive to reduce waste.
- 7 mentioned that they do not need a rubbish collection system as they use other disposal methods, such as taking rubbish to the dump or having a dump at home. A rate-based method would not benefit them.
- 6 cited that a rubbish collection targeted fund model would help to reduce illegally dumped waste, burning waste or storing waste in the back yard.
- 6 singled out that the proposal lacked information to decide and did not provide confirmed prices.
- 4 mentioned preferring bins rather than bags because bags are impractical, hard to keep clean, and are easily ripped by animals.
- 3 submitters expressed that they do not want another rate increase on top of the general rates.
- 3 said that rubbish collection using bins and funded by rates works well in other regions of the country and is a common approach in New Zealand.
- 3 said that they like the idea of being able to choose the size of the bin.

Zone One Rubbish Collection Consultation

Statement of Proposal April 2024 | To be implemented from 1 July 2025

The current situation in zone one

Background

Under the requirements of the Waste Minimisation Act 2008 Buller District Council must promote effective and efficient waste management and minimisation within the District. This is achieved by:

- Having a Regional Waste Minimisation and Management Plan.
- Providing a rubbish and recycling collection for zone one households in Westport and Reefton.
- Providing for a rubbish and recyclable materials drop off at transfer stations in Westport and Reefton and at Maruia and Karamea small landfills.

This proposal applies only to the rubbish collection service for households in zone one. Zone one covers Westport, the areas from Westport to the North until Mōkihinui Bridge, including Seddonville, Granity and Waimangaroa, Cape Foulwind, Charleston, Fox River and Punakaiki to the South and Buller Gorge Road, Inangahua, Reefton, Blackball, Ikamatua to the East.

The current waste management level of service offered in zones two and three are not proposed to change.

Current kerbside rubbish collection service in zone one

A kerbside rubbish collection service is currently offered via a private commercial operation managed and operated by Smart Environmental Ltd. The service is a Pay As You Throw (PAYT) model using either 60 litre official rubbish bags or a private wheelie bin service on a periodic basis. The official rubbish bags are currently sold for \$9.10 incl. GST. Bin costs vary depending on the bin size and collection frequency and the prices are set by Smart Environmental Ltd. This service is self-funding and not subsidised by Council.

Current kerbside recycling collection service in zone one

A kerbside recycling collection service is currently provided using a 240L recycling bin and a 45L glass crate, funded by Council via the waste management rate currently at \$178 incl. GST per annum. The service is delivered by Smart Environmental Ltd on behalf of the Council. The kerbside recycling collection system in zone one is not proposed to change.

Transfer stations and landfills

Transfer stations located at Westport and Reefton accept rubbish and recyclable materials. The public can also drop off rubbish and some recyclable material at Karamea landfill and Maruia landfill.

Rubbish from zone one households in Westport and Reefton is transported to Nelson's York Valley Landfill. Recyclable materials are transported to the materials recovery facility operated by Smart Environmental Ltd in Westport, they are then sorted into different products and transported to markets around the country and abroad.

Drivers for change

Issues to be addressed

A number of issues were identified and presented to Council in July 2023, which suggest it is timely to make a change to kerbside household collections:

- The waste collection sector is moving away from bags to wheelie bins for health and safety reasons. Wheelie bins reduce the risk of infection from waste and manual handling injuries.
- The Ministry for the Environment has announced the standardisation of household collection services focussed on recyclable materials and food waste.
- There is ongoing illegal dumping across the District and providing a consistent service for all households is anticipated to reduce illegal dumping.
- By controlling services, Council is able to invest on behalf of the community to capture more materials for recycling and recovery.
- By providing a universal household collection service to the specified areas of the Buller District, Council is able to manage costs for each household.

Decision to reconsult

The outcomes of the consultation and subsequent options and scenarios were presented in a report to Council on 13 December 2023. The first decision Council needed to make was whether to maintain the delivery of Zone one rubbish collection through the private sector (which is the status quo), or for Council to take over to provide the service via a delivery contractor. The second decision was whether to continue with a bag collection or to introduce wheelie bins. The third decision was whether to introduce the new service without further community consultation, to reconsult with the community on the recommended options using estimated costs or to reconsult with the community using tender prices.

At the December 2023 meeting, Council resolved to select four options to consult on for the Zone one rubbish collection. Two of which were to be private sector driven (Option Status Quo and Option 1B) the other two options were Council driven (Option 2B and Option 2E).

The Council December 2023 meeting agenda can be found at: <https://bullerdc.govt.nz/media/qjxnb235/231213-council-agenda-public.pdf>

Council resolved to reconsult with the community on the recommended options using estimated costs.

Zone one rubbish collection consultation 2023

Council agreed at its July 2023 meeting to consult with the community on a proposed change in the delivery of Zone one rubbish collection. The consultation took place from 7 August to 8 September 2023 and proposed four key changes:

- 1. A shift from using 60 litre rubbish bags to having a 120 litre wheelie bin provided by Council.**
- 2. Mandatory rubbish and recycling collection.**
- 3. Changing from weekly to fortnightly rubbish collection.**
- 4. Paying for rubbish and recycling collection through rates (rather than buying rubbish bags) i.e. a targeted universal rate charge.**

Written and oral submissions highlighted a range of views from the community including some supporting a shift to collection of rubbish in wheelie bins, concerns about a shift away from the current 'pay as you throw' approach, concerns about making rubbish collection mandatory and few specific comments about Council delivering the rubbish collection through a third party.

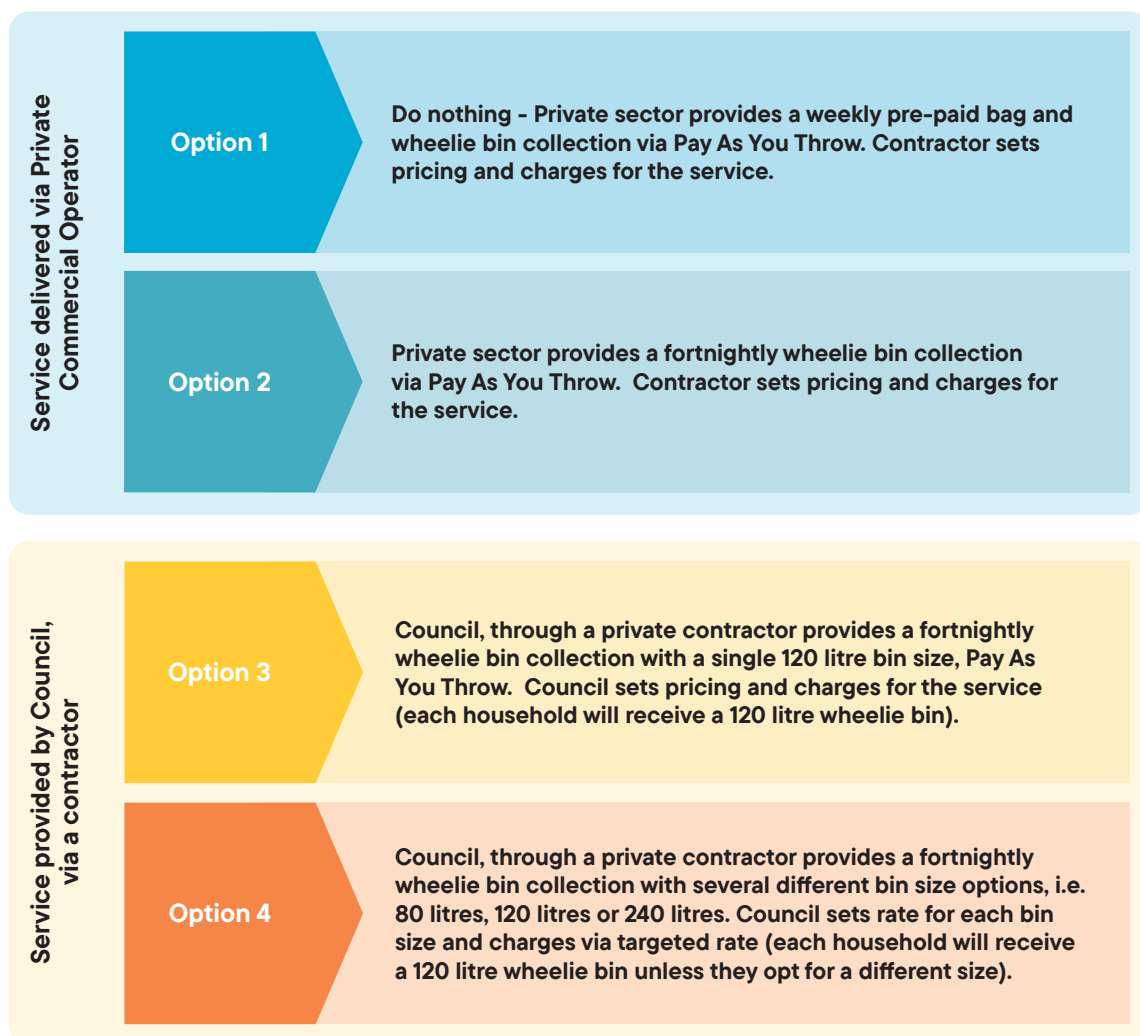

The consultation resulted in a range of submissions and public views and feedback on the proposal. Overall, 73% of the submitters were opposed to the proposal.

The proposal

Council is proposing changes to the way that rubbish collection services are delivered and funded in zone one from 1 July 2025.

All costs presented in this Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options in today's pricing. They will be subject to change when implemented in 2025.

There are four options to consider through this consultation:

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The options have been estimated in today's dollars for the purposes of consultation on a comparison between differing levels of service for rubbish collection. The recycling rate will continue to be in addition to these costs.

The option Council decides on will be rolled out for all households in Zone one with rubbish collection. The table that follows provides the cost estimates, advantages and disadvantages of each option.

Consultation options

Service delivered via Private Commercial Operator

Option 1

Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Current cost to the ratepayer

Bags

\$9.10 per 60 litre bag
 \$236.60 per annum (for one 60 litre bag per fortnight)
 \$473.20 per annum (for one 60 litre bag per week)
 \$946.40 per annum (for two 60 litre bags per week)

120 litre wheelie bin

\$28.50 per pick up
 \$741.00 per annum (collected fortnightly)

240 litre wheelie bin

\$39.30 per pick up
 \$1,021.80 per annum (collected fortnightly)

Option 2

Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

120 litre wheelie bin

\$24.50 per pick up
 \$637 per annum (collected fortnightly)

240 litre wheelie bin

\$34.50 per pick up
 \$897 per annum (collected fortnightly)

Service provided by Council, via a contractor

Option 3

Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service.

Estimated cost to the ratepayer

120 litre wheelie bin

\$17.00 per pick up
 \$442.00 per annum (collected fortnightly)

The initial cost for the bin is included in the cost per pick up or the per annum charge. There will be no one-off charge to users for the bin.

Option 4

Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate.

80 litre wheelie bin

\$245 per annum (collected fortnightly)

120 litre wheelie bin

\$295 per annum (collected fortnightly)

240 litre wheelie bin

\$435 per annum (collected fortnightly)

The initial cost for the bin is included in the targeted rate. There will be no one-off charge to users for the bin.

Service delivered via Private Commercial Operator

Option 1

Option 2

Service provided by Council, via a contractor

Option 3

Option 4

Advantages

- Users only pay for what they use, via pre-purchased bags, bin tags payment methods can be introduced by the contractor.
- Wheelie bins can allow fortnightly collection instead of weekly, this will be defined by the contractor to optimise the delivery service.
- Households that minimise waste (produce less than one bag per fortnight) will pay less.

- Users only pay for what they use, via pre-purchased bin tags.
- Wheelie bins can allow fortnightly collection instead of weekly.
- Improved Health & Safety and environmental containment versus current rubbish bags.

- Users only pay for what they use, via pre-purchased bin tags.
- Each household will receive a 120 litre wheelie bin).
- Wheelie bins can allow fortnightly collection.
- Improved Health & Safety and environmental containment versus current rubbish bags.

- Several bin size options available (80 litre, 120 litre, 240 litre) and potential for optimised cost structures.
- Each household will receive a 120 litre wheelie bin unless they opt for a different size.
- Households that minimise waste can opt for a smaller bin at a lower cost.
- The availability of a refuse bin for residents with regular pick-up times, that is already charged for via rates, is likely to lead to a more appropriate disposal of waste and may potentially reduce illegal dumping.
- Improved Health & Safety and environmental containment versus current rubbish bags. Households do not need to purchase pre-paid rubbish bags or arrange for a wheelie bin service from a private contractor.
- Price per household is likely to be lower for fortnightly collection compared to weekly collection.

Disadvantages

- Households are required to purchase pre-paid rubbish bags or arrange for a wheelie bin service from a private contractor.
- Price per household is likely to be higher for Pay As You Throw compared to Targeted Rate funded service for the higher users and rubbish generators.
- Increased illegal dumping risks if Contractor-set pricing too high.
- Households are likely to minimise the number of times they put their bin or bag out, potentially resulting in smelly rubbish.
- If pre-paid tags are used for wheelie bins, some may get stolen.
- Bag collections result in more health and safety issues for the contractor.
- Service inefficiency as routes operate regardless

- Households are required to arrange for a wheelie bin service from a private contractor.
- Price per household is likely to be higher for Pay As You Throw compared to Targeted Rate funded service.
- Increased illegal dumping risks if Contractor-set pricing too high.
- Households are likely to minimise the number of times they put their bin out, potentially resulting in smelly rubbish.
- If pre-paid tags are used for wheelie bins, some may get stolen.
- Service inefficiency as routes operate regardless of collection quantity.

- Upfront Council establishment and ongoing administration costs as well as the management for collection services.
- Service inefficiency as routes operate regardless of collection quantity.
- Price per household is likely to be higher for Pay As You Throw compared to Targeted Rate funded service.
- Higher collection costs may result in illegal dumping.
- Households are likely to minimise the number of times they put their bin out, potentially resulting in smelly rubbish.
- If pre-paid tags are used for wheelie bins, some may get stolen.
- Council needs to account for the procurement of wheelie bins. This cost will need to be recovered either over the life of the bins or the life of the contract.

- Upfront Council establishment and ongoing administration costs as well as the management of the collection services.
- Not a user pays model, Council rates paid regardless of service level required or used.
- No cost incentive to minimise household rubbish disposal within bin size capacity.
- Landlords will pay for their tenant's rubbish collection and may pass this on through an increase in rent.
- Council needs to account for the procurement of wheelie bins. This cost will need to be recovered either over the life of the bins or the life of the contract.
- Illegal dumping may still continue from some sectors of the community.

We are seeking your feedback

The Local Government Act 2002, requires councils to consult with residents and affected parties on significant changes to levels of service.

This means that Council seeks the community's views about the proposed changes to the Zone one rubbish collection through a public consultation before any final decisions are made. Anyone can give feedback on the proposal including individuals, organisations, and businesses.

Community feedback opens Friday, 12 April 2024 and closes at 4.30pm on Monday 20 May 2024. Late submissions will not be considered.

You can give your feedback by:

Online

Completing an online submission form.

<https://www.surveymonkey.com/r/Zone1rubbishcollection>

Hard copy

Complete a hard copy submission form, and return your submission to the mail slot at Council Offices in Brougham Street, Westport or the Reefton Visitor and Service Centre.

Talk to us

Staff are available during drop-in sessions to discuss any aspects of the proposal. You can find dates, times and locations on www.bullerdc.govt.nz.

Q5
Do you have any comments on the proposal?

There is no standard as to the amount of rubbish generated per household. We recycle, compost, and as at the 1st rubbish collection day in April, our 1st bag of rubbish was put out since the middle of December. If we are to have a bin replace the black Council bags, I suggest they be tagged in some way, they can then be scanned and a household only pays when picked up. In the previous 12 months our household only used five rubbish bags, only as there were a few extra items which could not be recycled. I strongly believe that there should be a user pays based charge for all rubbish collection.

Q5

Do you have any comments on the proposal?

The reality is in time the council would charge the locals with paying per kg when we would change the rubbish collection. That's the reality in several parts of Europe.

End of the road the costs for the locals would skyrocketing in time.

Regards

W.J.M.van der Zandt

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Q5
Do you have any comments on the proposal?

Council should be operating the collection service, not using a contractor who takes profit from the local economy.

Q5
Do you have any comments on the proposal?

Option suits my circumstance. I only use 1 rubbish bag every 6-8 weeks.
The thought of a smelly bin with a 6-8 week worth of waste does not appeal to me. I do not want the council to have this as a targeted rate. There are too many targeted rates now.

Q3 **No**

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4 **Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.**

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Q5

Do you have any comments on the proposal?

Bags need to be either cheaper or thicker as they are so thin most items put into them tear them and for the price it's ridiculous.

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

We do not create much rubbish as a house hold. I am happy with current options, we use a bag once a month if we are lucky. No way can we afford higher rates when we would not benefit anything from this service!

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

Option 1 is the overwhelming choice of the majority of ratepayers. Very disappointing that this has dragged on to this point! The costs involved (time, resources and money) is a taint on those involved. Do the right thing and keep the status quo.

Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).**
Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Q5
Do you have any comments on the proposal?

Option 4 is the only one that addresses most of the questions I hear most often. Having the Council include the waste collection charges via rates means that every household is paying for the service which then should reduce illegal dumping. Option 4 seems to be the simplest and most flexible.

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

I think if not Option 4 then Option 3 is a good idea. We need to change away from the bin bags as they are impractical and hard to keep sanitary when you aren't putting one out every week. If people are unhappy about a flat rate for bins, having a paid bin tag could be a good solution.

Option 4 is the best solution, when I lived in Christchurch it was so good to just be able to put the bin out each fortnight and not have to worry about the cost or putting things in the right kind of bag.

People are struggling with cost increases across the board. Understand you want to implement a new system but I believe this is just to show you are improving a service and it won't really deliver anything but take more from our wallets. Just my opinion

Q5

Do you have any comments on the proposal?

Option 3 meets the principle of Pay As you Throw what it seems a preferred approach for Buller residents. If this option is adopted, all properties in Zone 1 will be provided with rubbish bin, so, users would not need to purchase rubbish bags or arrange private rubbish collection services. Moreover, if option 3 is adopted, the rubbish collection would allow Council to have more control in prices and charges.

Q5

Do you have any comments on the proposal?

If collection is reduced to fortnightly, whenever anyone misses putting their rubbish out (which happens for any number of reasons) that would mean it would be a MONTH before rubbish was collected. Ew.

Q5

Do you have any comments on the proposal?

My partner and I strongly object to any BDC proposal or options that require ratepayers to pay for rubbish collection. This is unethical and unfair, as you are attempting to penalise those ratepayers who produce very little unrecycleable rubbish...people who have an organic property, who recycle, who compost, who do not purchase non-recyclable items, who re-use glass containers, who buy in bulk using paper bags and recyclable containers, who take the time and trouble to not purchase non-recyclable items...who re-use and recycle. Ratepayers who do so should be encouraged and supported. We do not want rubbish pick up at our Charming Creek Road property, and we drop off our own recyclables when we go to town (Westport) by using the recycling depot in Westport. Rates are expensive enough without forcing people to have rubbish pick up services at their premises that they do not need. Please respect and support those ratepayers who are committed to truly sustainable lifestyle and who vote with their dollar to support organic and recycleable products. We have a number of elderly neighbors who are committed to recycling and who minimise the production of any non-recyclable rubbish- many of whom are on a low-income and who cannot afford more council charges.

Q5

Do you have any comments on the proposal?

It's easier if you don't have to rush out and buy bags. Just paying in the rates each quarter is easier and having a bin that protects rubbish service personnel.

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

We already have a 120 litre bin so will make no difference to us and hopefully this will stop rubbish being dump at other places instead of the dump

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

I would strongly prefer to leave the system as it is. That is buy your own bags as required for rubbish you produce. I do not want a weekly bags

No

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Q5

Do you have any comments on the proposal?

As Option 1 involves the use of plastic bags it should not be considered as an option. Council have already stated that the continued use of these bags may be dangerous, unhygienic and can be ripped open by animals. We have chosen option 3 as we believe Council should be in full control of the operation especially pricing.

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

Preferred option is one that does not increase rates. I do not currently use the prepaid bags or bins, so any option that increases rates would charge me without me getting any identifiable benefit. Charges need to reflect the amount of rubbish people want to be collected, with zero charge for zero waste.

Q5

Do you have any comments on the proposal?

This will be cheaper & why change something that is working. I have my 120 litre bin emptied once a month costs \$25.48 a month \$305.76 a year. If council takes over they will add an additional administration cost.

Q5

Do you have any comments on the proposal?

Bins are a much better option to bags. No need to worry about cats or dogs ripping into them and I'd love to not have to worry about remembering to buy bags in the shopping. Multiple size selection means that every household would be catered for.

No

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

I strongly object to any option/ proposal that requires ratepayers to pay for rubbish collection at their property.
I support the status quo, that it is optional if residents get rubbish collection.

Proposals for mandatory rubbish collection are unethical and unfair, as these options would penalise those ratepayers who produce very little unrecycleable rubbish...people who have an organic property, who recycle, who compost, who do not purchase non-recyclable items, who re-use glass containers, who buy in bulk using paper bags and recyclable containers. Residents who take the time and trouble to not purchase non-recyclable items...who re-use and recycle.

My partner and I strongly object to any option/ proposal that requires ratepayers to pay for rubbish collection.

This particular proposal (mandatory rubbish collection) is unethical and unfair, as you what you are proposing would penalise those ratepayers who produce very little unrecycleable rubbish...people who have an organic property, who recycle, who compost, who do not purchase non-recyclable items, who re-use glass containers, who buy in bulk using paper bags and recyclable containers, who take the time and trouble to not purchase non-recyclable items...who re-use and recycle.

Ratepayers who do so should be encouraged and supported. We do not want rubbish pick up at our Charming Creek Road property, and we drop off our own recyclables when we go to town (Westport) by using the recycling depot in Westport.

Rates are expensive enough without any mandatory requirement for people to have rubbish pick up services at their premises that they do not need. Please respect and support those ratepayers who are committed to truly sustainable lifestyle and who vote with their dollar to support organic and recycleable products.

On the BDC website (to do with Waste) it states "

Our long-term vision is to have the Buller community understand their waste consumption, their impact on the environment and commit to reduce, reuse and recycle."

Therefore, you should support ratepayers who REDUCE waste production significantly, and not penalise them with mandatory rubbish collection.

No

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

Option 4 provides the best value for money for all residents and will enable Council to provide the most cost efficient solution through economies of scale. It also aligns with the NZ wide approach and provides equal access to rubbish collection yet people can adjust their bin size to how much they produce.

Q5

Do you have any comments on the proposal?

As we produce very little rubbish. Option 3 is our choice as we will be paying for rubbish we do not have with the other 3 options and would make them way more expensive. User pays option for us.

Q5

Do you have any comments on the proposal?

Prefer the option of having a smaller bin size available for lower users, and if the payment is included with rates, there is no additional payments to be made, either to purchase bags or pay for collection.

Email address [REDACTED]
Phone number [REDACTED]

Q2

Yes

WOULD YOU PREFER YOUR CONTACT DETAILS BE WITHHELD WHEN SUBMISSIONS ARE MADE AVAILABLE ONLINE ?

Q3

No

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

I feel this is the fairest option as it is user pays, there are no upfront costs eg payment for yet another big plastic wheelie bin. Most affordable option for most ratepayers who may be finding times tough enough without being landed with yet another rate increase on top of the general rates increase

Yes

WOULD YOU LIKE TO SPEAK AT THE ZONE 1 RUBBISH COLLECTION HEARINGS?

Q4

Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted)

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

This is easily the best of the 4 options above for the community as a whole and works well in other areas of the country.

Q5 Do you have any comments on the proposal?
To support residents reducing rubbish & for households where use is low (especially with the atypical demographic of elder + single/couple households) there needs to an option to reduce rubbish put out. If I only generate one bag a month through conscious management, all your options are more expensive and "force" a frequent collection that is demotivational. Choose a provider where one can pay as you go with a wheelbin as is possible in other centres. Your limited & expensive options mean I go with status quo even though I would prefer a flexi- bin service

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

Enabling people to continue to use rubbish bags gives them better control over how much they spend on rubbish disposal, and therefore of how much rubbish they dispose of. I feel it is the only fair and equitable way for all in the community to be 'user pays'. It would be by far the cheapest option for those who dispose of smaller amounts of rubbish.

Having Wheelie Bins invites the following problems:

1.If you have a bin, and feel like you are paying for the bin, you will fill the bin. This discourages diligent recycling (which council is also promoting - and rightly so) and does not promote composting. People, I feel, will indiscriminately throw anything and everything in the bin, as it is convenient and they are paying for collection anyway.

2. Rubbish disposal should be user pays - all the options aside from rubbish bags seem to me to favour larger households with more rubbish, which inevitably means smaller households with less rubbish would be subsidising those larger households. I'm particularly concerned about this regarding pensioners or those on low incomes; they should not be subsidising anyone.

In this climate of huge rises in the cost of living, you are simply adding to the problem.

As an aside, our household uses 6-8 rubbish bags PER YEAR. Yes, we have responded to your recycling promotion and have composted for over 40 years. Any other option than the status quo will increase our fees for rubbish disposal hugely. There is no way you will convince me that we are not subsidising others who have no regard for waste management and therefore put out full wheelie bins of rubbish.

The current system seems to work fine, we don't need to change just because lots of other towns and cities use wheelie bins.

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Q5

Do you have any comments on the proposal?

I have picked it to stay the same as myself working at a supermarket see people already having to choose between a rubbish bag a food which is crazy . Also not every creates the same amount of rubbish myself a single lady . Only put her recycling out maybe once every 2 months and my rubbish small rubbish bin once a month (only because i have too).

Q5

Do you have any comments on the proposal?

As long as council does not use it as a cash cow and up the price whenever they feel fit, this is the better of the four options.

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

Seems option4 will be the most flexible and appropriate for most ratepayers. I believe that rating for waste collection will reduce fly tipping and increase recycling.

Q5

Do you have any comments on the proposal?

As a household we make a very concerted effort to reduce waste in every aspect of our lives. Including composting, purchasing decisions, and extreme care in how we do things. We even do things such as order toilet paper from away which comes in paper and cardboard rather than purchasing the plastic wrapped toilet paper in the local supermarket. These decisions are to lessen our impact on the planet to lessen our waste footprint. As a consequence we produce very little waste, and see any decision other than only paying for what we produce as unfair, as we alraefday pay extra by choice to be kinder to the planet. We see the only fair way here is option one.

Do you have any comments on the proposal?

it is the cheaper and I do not have a great deal of rubbish - also being involved with the Reefton Bowling Club it is a better choice for the club as it is pay as you go which means for 6 months there is no rubbish to pay for.

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

Q5

Do you have any comments on the proposal?

Option 4 is the only sensible long term plan, any current benefits from pay as you go will soon be eroded with the increased costs of a service that not all residents are using.

It should lead to a lot less contamination in recycling and less fly tipping. Hopefully reducing the overall costs in these areas to the council. I would also like to see the recycle bin audits done regularly and unannounced, so residents know to keep contaminants to a minimum. (If in doubt something is recyclable put in it in the already paid for (Option 4) refuse bin)

Some residents won't be burning anything combustible and leaving piles of refuse to rot in their back yards because they refuse to pay the price of Pay as You Throw.

Q5

Do you have any comments on the proposal?

At least there is feedback to people about the cost of waste, though I think this is too little - council needs to get way more ambitious.
One drawback is listed as smelly rubbish. One way to relieve that is to provide a weekly food & green waste collection service. Tauranga halved their waste to landfill when they did!

Q5

Do you have any comments on the proposal?

Option 3 - As long as you only get charged when the bin is emptied - "pay as you throw"
A lot of people / households do not fill a bin every week or every two weeks. Pay as it is collected is the better option.

What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheele bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheele bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheele bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheele bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

View through our website for more information on the process which includes cost examples and contact details for each option.

**Waste Management Buller District
Proposal for new model of services
Consultation 2**

Name Frida Inta

I wish to speak to my submission

It is really hard to make an informed submission on rubbish when many of the statistics needed are hidden behind perceived commercially sensitive barriers. SE should tell us how many bags it needs to sell to cover each rubbish collection and how many rubbish bags are sold per annum under its service in the Buller. SE also needs to tell us what its profit in the Buller is per annum.

Council cant answer my questions re statistics on flytipping because it is a work in progress. Surely we should have the answers to flytipping before this consultation period ends.

These are all questions I asked before the first submission deadline last year, and still no answers.

Nevertheless **I reject all 4 options.**

Important point: single-use rubbish bags should not be used for rubbish. They are not vermin-proof, they rip easily, they are single-use plastic rubbish, they are not user-friendly for rubbish-collectors.

The option I want is a 80 litre rubbish bin on PAYT.

That would be **Option 4 with a PAYT choice** rather than a fixed annual rate.

Option 4 could be extended to have a choice, not just on wheelie bin size, but a choice between PAYT and an annual fixed charge.

I use the rubbish bag service twice a year or less because I generate very little inorganic rubbish, I compost, and I re-use and upcycle.

With respect to this proposal in terms of trying to reduce flytipping, I have decided I do not want to subsidize those who do not have the moral fortitude to understand that we as a district need to dispose of our rubbish in a way that supports a healthy community. It is not a matter of intelligence as to how rubbish is disposed of, it is a matter of attitude, and I refuse to support bad attitude. I would be supporting bad attitude to the tune of \$220 (\$240 minus 2 rubbish bags) per annum (with a 80L rubbish bin) - NO THANKS!

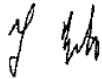

Green waste should have been up for consideration now also. BDC's attitude to greenwaste is deplorable. Here's the latest Mokihinui Beach dumpsite. The logic in dumping at a beach shows a very low respect for our natural environment.

The problem with a fortnightly rubbish collection is that, to state the obvious, organic rubbish stinks more the longer it is left to rot. How can a proposed service that would only collect half as often but increase the cost to most ratepayers, be justified?

Flytipping is a community issue, and neighbours can play a role in identifying flytippers, which would benefit the community as a whole.

No matter how this proposal is viewed the only certainty is that most households' rubbish disposal costs will soar. Where is the justification? Costs and charges to ratepayers are way out of control and need reining in.

> What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

We encourage you to read the Statement of Proposal, which includes cost estimates, advantages and disadvantages for each option.

All costs presented in the Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options using today's pricing. They will be subject to change when implemented from 1 July 2025.

Your submission

1. Which of the options would you prefer? Please tick **ONE** preferred option below. (Please note if none or more than one is ticked your submission will not be counted.)

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

Option 4 appears to be best value for money for both B.D.C. Council, & residents of Buller

Wheelie bins are an excellent idea & much safer health wise for both residents & workers collecting the rubbish.

Green waste bins will hopefully be introduced in the future & the B.D.C. can be in business to make compost & sell to residents & farmers.

➤ What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

SCAN ME
to read the
Statement of
Proposal

We encourage you to read the Statement of Proposal, which includes cost estimates, advantages and disadvantages for each option.

All costs presented in the Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options using today's pricing. They will be subject to change when implemented from 1 July 2025.

Your submission

1. Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted.)

- Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).
- Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

Chose Option 4 as I see it as the fairest option for low users with the different bin sizes
 Currently we only use 6-8 bags per year but I'm prepared to pay the extra for a 80 l bin for the greater good of the heavier usage by families.
 OR
 Option 1 would suit us best as we're a low user.

Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

Personally I find the bag system perfectly adequate, & it is flexible - if you ever have extra rubbish you can just put out an extra bag or 3. Fortnightly would be fine. It's also user-pays.

If forced to choose, Option 3 is preferable simply because it is user-pays.

Why can't we utilise the close at hand Caroline Terrace refuse site & use Westreef for the collection & disposal service? Surely two Westreef (part-time?) digger/operators could bulldoze to cover the waste at the Caroline Terrace site, as ^{the trucks} ~~it~~ have already been checked in at the Refuse Station in Craddock Drive. I cannot understand how employing locals & using a site close to town is not "economic".

Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

I have earlier made a submission on this very issue.

My main points are:

* The current system works very well

* People are incentivised to minimise the quantity of waste put out.

* To change will cost more - - - -
in our case double the current charge.

➤ What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

SCAN ME
to read the
Statement of
Proposal

We encourage you to read the Statement of Proposal, which includes cost estimates, advantages and disadvantages for each option.

All costs presented in the Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options using today's pricing. They will be subject to change when implemented from 1 July 2025.

Your submission

1. Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted.)

- Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).
- Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

Fly-Tipping has to stop
 Option 4 is the best way. People can
 choose the size bin to suit their
 household use

- Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).
- Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

I use rubbish bags. As an 80 year old, wheelie bins are out of the question, my road is a DOC road, and the council picks up bins only on SH6. I would have to get the bin to the highway, it is beyond my ability. My rubbish bag is all retail-generated, plastic as a rule. My rubbish is 2-3 bags per year, and my re-cycles about 1 bag per month, all taken to Westport in my car, saving council pick-up costs. My road is very rough, run-of-river gravel, and a bin is out of the question.

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

With the rise of the "zero waste" movement, more people are moving towards making wiser consumer choices, creating less waste. We don't think those who produce less rubbish should subsidise those who don't, but should be rewarded for their efforts to generate less rubbish. Those of us who produce less rubbish have fewer collections therefore less for the council to process and transport, which lowers council workload and resources. So a model based on a user pays system is more fair.

Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.

Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).

Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

I definitely prefer a pay as you throw service.
As I have a woodburner, and a compost, the only rubbish I throw is small plastics that can't be recycled.
Presently, with the current system using a 60 litre bag, I only put it out once every 6 weeks (approximately).

I do NOT want to pay for a fortnightly collection which I wouldn't use.

➤ What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

Not much difference in the choices, they all include an outside private contractors.

Don't have much faith in the council reducing any prices if going through private contractors at the time

Surely we could find a landfill site closer or in Westport to use to keep costs down.

Submission number: Office use only

118

➤ What is being proposed?

Council is proposing changes to the way that rubbish collection services are delivered and funded in Zone One from 1 July 2025.

There are four options to consider through this consultation:

- **Option 1** - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw.
- **Option 2** - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw.
- **Option 3** - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw.
- **Option 4** - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres.

The above options do not include the current recycling rate of \$178, - incl GST as of 2023/24 financial year. The recycling rate will continue to be in addition to the costs for rubbish collection in Zone One.

The option Council decides on will be rolled out for all households in Zone One with rubbish collection from 1 July 2025.

SCAN ME
to read the
Statement of
Proposal

We encourage you to read the Statement of Proposal, which includes cost estimates, advantages and disadvantages for each option.

All costs presented in the Statement of Proposal are in 2023/24 financial year figures to allow an accurate comparison of options using today's pricing. They will be subject to change when implemented from 1 July 2025.

Your submission

1. Which of the options would you prefer? Please tick ONE preferred option below. (Please note if none or more than one is ticked your submission will not be counted.)

- Option 1 - Status Quo - Private sector provides a weekly pre-paid bag and wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 2 - Private sector provides a fortnightly wheelie bin collection via Pay As You Throw. Contractor sets pricing and charges for the service.
- Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).
- Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

- Option 3 - Council, through a private contractor provides a fortnightly wheelie bin collection with a single 120 litre bin size, Pay As You Throw. Council sets pricing and charges for the service (each household will receive a 120 litre wheelie bin).
- Option 4 - Council, through a private contractor provides a fortnightly wheelie bin collection with several different bin size options, i.e. 80 litres, 120 litres or 240 litres. Council sets rate for each bin size and charges via targeted rate (each household will receive a 120 litre wheelie bin unless they opt for a different size).

2. Do you have any comments on the proposal?

Please feel free to include any comments on the proposal.

None, council should take over the rubbish and reform their plans, as rubbish fly tipping is out of control down at the beach.

how do you account for the weighbridge @ Karamea.
