

# Feeling good about your compostable coffee cup?

Compostable, biodegradable and degradable packaging cannot be recycled in New Zealand.

That "eco-friendly" compostable logo on your coffee cup is not as beneficial as you suspect.

**Your cup will end up in landfill and can't be recycled in Buller.**

So your compostable cup just turns into another piece of rubbish adding to a big problem.

**Be a local hero!**

Stick to reusable cups or enjoy your coffee sitting down to truly have a positive impact.
